JavaScript (ES6+), Java, SQL, HTML5, CSS3, React.js, Tailwind CSS, Bootstrap, Node.js, Express.js, Php, REST APIs, API Integration, Authentication (JWT), MySQL, MongoDB, Git, GitHub, XAMPP, Postman, VS Code, AWS, Vercel, Netlify, Basic ML And AI, Big Data, Cloud Computing

EXPERIENCE

Labmentix

Remote | India

full stack developer

Jun 2025 – Aug 2025

- full stack web applications using React.js, Node.js, Express.js, and MySQL, ensuring responsive UI.
- Integrated RESTful APIs to enable efficient data exchange between client and server components.
- Collaborated in Agile development environments Applied strong problem-solving, debugging, and communication skills to deliver scalable solutions.

EDUCATION

DY Patil University

Pune, India

- Master of Computer Applications in Artificial Intelligence (AI) and Machine Learning (ML)

2024 – Present

INTI International University

Kuala Lumpur, Malaysia

- MCA - Information Technology (Mobility Program)

Aug 2025 - Jan 2026

G.H. Rasoni College of Commerce, Science and Technology

Nagpur, India

- Bachelor of Computer Applications (BCA) - Information Technology

Jul 2021 - Jun 2024

PROJECTS

InterviewReady (MERN) – Resume Ready Learning Platform

2026

- Developed InterviewReady, a platform that helps users prepare for technical interviews through structured learning resources and curated practice questions.
- Designed a system that allows users to practice interview questions in a real-world interview-like environment.

WorkWgon(MERN) – Freelancing website

2026

- Built a scalable freelancing web application with secure user authentication and role-based access, addressing data consistency and access control challenges.
- Developed responsive interfaces and integrated backend APIs to resolve performance and real-time data handling issues.

Aaokhaao – Food Delivery Website

2025

- Developed a food delivery web application with user and admin panels, solving authentication, session management, and order workflow challenges.
- Implemented dynamic menu and order management features, addressing database synchronization and concurrent user handling issues.
