<https://portfolio-xi-nine-42.vercel.app/home>

SUMMARY

Full-Stack Developer specializing in Artificial Intelligence (AI) and Machine Learning (ML), currently pursuing a Master of Computer Application (MCA). Experienced in front-end technologies such as HTML, CSS, JavaScript, React.js, Tailwind CSS, and related frameworks and libraries. Skilled in back-end development with PHP, Java, Node.js, and associated frameworks. Proficient in database management with MySQL and MongoDB, API integration, and application optimization. Committed to delivering scalable, efficient, and user-focused solutions in collaborative team environments.

EXPERIENCE

Full Stack Developer

Labmentix 06/2025 - 09/2025
<https://portfolio-xi-nine-42.vercel.app/home>

Contributed to website development in a project-based environment, handling both front-end and back-end tasks. Built and optimized web applications to ensure functionality, performance, and user-friendly design.

PROJECTS

Work Wagon – Freelancing Platform

<https://frontend-workwagon.vercel.app/login>
Built a freelancing platform that connects clients with skilled freelancers for services such as web development, logo design, and SEO. Designed and developed features for freelancer profiles, service offerings, and client hiring to ensure a smooth, user-friendly, and reliable collaboration experience.

- **Tech Stack** React.js, Tailwind CSS, Node.js, MongoDB

AAOKHAAO – food delivery

<https://github.com/ASHMEETSINGHRENU/AAOKHAAO-food-delivery>
Built a responsive food delivery website with user and admin panels. Implemented secure login, dynamic menu, order management, and real-time updates using PHP and MySQL. Designed an intuitive UI with Bootstrap and handled database operations using XAMPP.

- **Tech Stack** HTML, CSS, JavaScript, Bootstrap, PHP, MySQL, XAMPP.

Bank Management System

<https://github.com/ASHMEETSINGHRENU/BANK-MANAGEMENT-SYSTEM>
Developed a secure banking application using Java that enables users to efficiently manage accounts, perform deposits and withdrawals, update PIN, and access transaction history. Implemented a user-centric interface combined with strong backend functionality to ensure reliable and seamless performance.

- **Tech Stack** Core Java, MySQL, XAMPP Server.

Glam Cosmetics

<https://github.com/ASHMEETSINGHRENU/glam2.0>
Developed a responsive e-commerce website for cosmetic products, enabling users to browse, like, and add products to their wishlist. The platform enhances the shopping experience through personalized user interactions and intuitive design.

- **Tech Stack** HTML, CSS, JavaScript, Bootstrap, PHP, XAMPP, MySQL.
